Welcome to the Hidden Coven

Tucked away in the rugged hills of Pennsylvania is a unique village; a mix of medieval and modern, dark and light, guided by a mad seer and hidden from the mundane world by dangerous magic. As ley-lines swell and magic spills back into the world, keeping this coven a secret becomes a race against dark forces who would take the power of the witches for their own.

In this complete series of five novellas, Bobbi Cole progresses from a novice spell-caster, who is a danger to herself and others, to a warrior and protector who must lay her life and sanity on the line if the coven is to survive.

Quinn Mason has his own demons to fight, including his knee-jerk reaction not to trust this new, untested witch thrust into his life. Together, Bobbi and Quinn confront the family secrets that set their story in motion long before they were even born.

Includes all five novellas of the Hidden Coven Series:

Inborn Magic, Soothed by Magic, Trigger Magic, Bellwether Magic, Gone Magic

Author Bio

Kim McDougall is an author, fiber artist and photographer who writes dark fantasy fiction. Under her married name, Kim Chatel, she has published 6 books for children. As CEO of Castelane, she also edits and designs books and covers. Kim is a proud board member and speaker wrangler for the Writers' Community of York Region in Ontario, Canada.
